

C-SERIES

Quietly make
a statement

mode

Frugal and conscious design has always been chic; but extravagance and opulence has never been more out of vogue. Designed on the principle of form follows function, C-Series motorcycles from Mode Mobility are your perfect no-frills urban runabout.

The exposed tubular steel frame is simple and tough, it can happily endure whatever your city can throw at it; from potholes to speed-breakers and flyovers. Its unisex step-thru design, long wheelbase, and clutchless operation offer new riders comfort and confidence from the moment they hop on. The front footwell isn't just a spot to rest your feet; it doubles as a handy storage space for your backpack or shopping, making everyday errands a breeze.

The 3 kW motor delivers instant torque and makes easy work of navigating through urban traffic, it gets you where you want to be without much drama. The front and rear disc brake set up is a first in class for Pakistan, they ensure that you have stable and smooth stopping power and give you the confidence to wring the most out of the motor. The cruise mode lets you maintain a steady speed with ease, reducing stress and boosting efficiency on every journey.

The Mode C-Series doesn't make noise; it quietly makes a statement.

C320 First Edition

The Mode C-Series is launching with an exclusive limited edition: the C320 First Edition. Designed for trailblazers and risk-takers—early adopters and passionate enthusiasts—this model is for those who share our vision and want to help shape the future of Mode Mobility.

Your journey with the C320 First Edition goes beyond ownership. As a key member of the First Edition community, you'll have the unique opportunity to shape the future of electric mobility. By sharing your experiences and insights, you'll play an essential role in refining the C-Series and influencing the development of future Mode vehicles. This is more than a ride—it's a chance to leave your mark on a groundbreaking movement, proudly crafted in Pakistan and designed for a global impact.

The C320 First Edition features exclusive paint and seat fabric options, extended warranty coverage, complimentary services, and a buy-back guarantee—ensuring a confident and worry-free ownership experience.

Don't just follow the future—define it. Be one of the 100.

You can have it painted in any color you want, or choose from one of our six curated shades.

Premium chassis colors will incur an additional charge. Custom colors are available upon request, with charges based on the specific paints chosen.

Portable Battery

The C320's 2 kWh battery is effortlessly removable, letting you charge it anywhere with a power source, even without curbside access. Carrying it with you also protects it from theft and vandalism.

Flex Charge

With our portable charger, removable battery, and on-vehicle charging port, you have the freedom to charge wherever you choose—whether it's in your garage, living room, or even under your desk at the office.

Front & Rear Disc Brakes

The C320's hydraulic disc brakes provide precise control and stopping power, letting you ride with confidence.

LED Headlight

The LED headlight, featuring integrated DRLs and High/Low beam, enhances visibility for you and others without blinding oncoming traffic.

LED Taillight

The LED taillight enhances the C320's sleek design while boosting visibility, ensuring a safer ride and making you stand out on the road.

Kickstand Interlock

The C320 features a kickstand interlock switch that disables the bike when the kickstand is deployed, adding an extra layer of safety to your ride.

Regenerative Braking

The C320's drivetrain recovers kinetic energy, enhancing braking performance, reducing brake pad wear, and boosting overall energy efficiency.

Cruise Control

Maintain a steady speed effortlessly. Cruise control makes your ride more relaxing and improves range through enhanced efficiency.

Digital Instrument Cluster

The C320's LED backlit digital instrument cluster offers bright, easy-to-read information, allowing you to keep your focus on the road.

Extra-long Seat

The C320 boasts the longest seat in its class, offering ample space to comfortably bring along friends or carry extra gear.

Step-thru Design

The unique step-thru design and spacious floorboard make it easy to hop on and off comfortably or haul cargo.
